

Medical Professional Liability Claims Application – Instruction Manual

Definitions

- **Illinois Department of Insurance – IDOI**
- **Medical Professional Liability - MPL**
- **User Role** - The User Role allows you to add any new claims for a company and amend any claims that have been assigned to you by the manager.
- **Manager Role** - The Manager Role allows you to see all claims for a company, the ability to assign claims to a user and all the functions of the user as well.
- **User vs. Manager Role**
 - Roles can be assigned based on companies' need for privacy. If a company has multiple reporters and wants to limit the information these reporters see, they can establish User Roles. Managers see all claims for the company and their assigned users. The User Role only sees claims that they have entered or claims that have been assigned by a manager. If a company only has one reporter of claims, that reporter will be assigned a Manager role. If privacy isn't an issue, or if all reporters need to see all claims for a company, these Users will be assigned Manager Roles.
- **Draft vs. Submit Mode**
 - In Draft Mode, you are able to enter just the Claim ID and come back at a later time to complete the claim. Whenever you click the 'New' button to start a claim, it will automatically take you into Draft Mode. You will know you are in draft mode when the 'Status' says Draft as seen below

The screenshot shows the top section of the application interface. At the top right is a link for [Reporting Instructions](#). Below this, the 'Insurer' is listed as '- 11-1111111'. To the right, 'Last Maintenance Date:' and 'Last Updated By:' are displayed. The 'Claim ID' field is empty, and next to it, the 'Status' is 'Draft', which is circled in red. Below these fields is a horizontal menu with buttons: 'Contact Person', 'Initial Claim', 'Place of Injury Information', 'Nature of Claim', 'Claim Payment', and 'Claim History'.

- If a claim is not in Draft Mode, the 'Status' portion should say Open, Closed or Reopened as seen below.

The screenshot shows the top section of the application interface. At the top right is a link for [Reporting Instructions](#). Below this, the 'Insurer' is listed as 'Company ABC - 11-1111111'. To the right, 'Last Maintenance Date:' is '1/27/2012 3:52:31 PM' and 'Last Updated By:' is 'DOIMedMal'. The 'Claim ID' field contains 'Sample Claim 1', and next to it, the 'Status' is 'Open', which is circled in red. Below these fields is a horizontal menu with buttons: 'Contact Person', 'Initial Claim', 'Place of Injury Information', 'Nature of Claim', 'Claim Payment', and 'Claim History'.

- **Editing a closed claim vs. Reopening a claim**

- Once a claim is closed, the claim goes into a read only mode and in order to edit the claim you need to click the 'Edit' button at the bottom of the page. Do not reopen a claim unless the claim truly has reopened. If you need to just edit information on a closed claim, when you click the 'Edit' button you are allowed to amend information that you previously entered.
